"Growing Minds, Not Just Grades"**

At Mother Divine Public School, our approach to early childhood and primary education is aligned with the principles of the National Curriculum Framework (NCF). The NCF emphasizes that learning should not be limited to rote memorization, but should focus on experiential learning, creativity, and holistic growth.

1. No Rote Learning – More Exploration

Children learn best when they connect knowledge with real-life experiences. Instead of memorizing facts, they are encouraged to explore, question, and discover concepts through activities, stories, and hands-on tasks

2. Skill Development Beyond Academics

Education today goes beyond textbooks. Skills such as problem-solving, teamwork, communication, and empathy are nurtured through projects, role-plays, art, music, and collaborative tasks. Activities like the Student-Led Parent Conference (SLPC) empower children to take ownership of their learning and confidently showcase their progress

3. Experiential Learning through Kitchen Garden

Our newly initiated Kitchen Garden allows children to plant seeds, care for plants, and watch them grow. These activities instill patience, responsibility, and a deeper appreciation for nature while connecting them to science and environmental care in a fun, practical way.

4. Assessments without Pressure

In line with the NCF, assessments are designed to track progress and growth, not to judge or label children. There are no exams in early years; instead, continuous observations and feedback help teachers and parents understand a child's strengths and areas for improvement.

"Education is not the learning of facts, but the training of the mind to think." — Albert Einstein

Tips for Parents: Growing Minds, Not Just Grades

- **Value Habits Over Marks** – Encourage honesty, punctuality, kindness, and responsibility. These shape a child's character more than a score ever can.
- **Appreciate Effort, Not Just Outcome** – Praise your child's hard work, persistence, and creativity, even if the result isn't perfect.
- **Make Learning Joyful** – Link studies to daily life—measuring ingredients in the kitchen, gardening, or storytelling—to help children learn naturally.
- **Model What You Teach** – Children learn more from what they see than what they hear. Show them by example—read, stay curious, and practice discipline.
- **Celebrate Individuality** – Every child grows at their own pace. Avoid comparisons; instead, focus on their unique strengths and talents.
- **Encourage Responsibility** – Involve children in small household tasks. These teach accountability, patience, and teamwork.

Remember: Grades may reflect a child's progress in one subject, but habits reflect the foundation of their whole life. Together, as partners in education, we can help children grow into confident, empathetic, and skillful learners—prepared not just for academics, but for life.

FROM THE FACILITATOR'S DESK

MS. SHIKHA GIRDHAR

“Every child is a story unfolding, and every lesson adds a new chapter of growth.”

There’s a unique joy that comes with teaching Grade II—a stage where curiosity deepens, imaginations flourish, and learning becomes an exciting journey of discovery. Every day, we see children turning their ideas into words, solving problems with growing confidence, and working together with kindness and enthusiasm.

From lively class discussions to thoughtful writing, from exploring new concepts to helping a friend, every moment in Grade II is filled with wonder and meaning. Their questions spark curiosity, their creativity shines through, and their determination inspires us. Whether it’s a proud smile after solving a tricky sum, a new word learned in reading, or a kind gesture shared with a classmate—these are the everyday victories that make teaching them so rewarding.

In our classroom, we believe in gentle encouragement, active participation, and celebrating every achievement—big or small. It’s a space filled with learning, laughter, and love, where every child feels valued, supported, and inspired to be their best self.

Thank you for the trust you have placed in us. Being part of your child’s journey in Grade II is both an honour and a joy. With every story, every question, and every smile, we are building something truly special—together.
