# ARTICLE BY JUNIOR PROGRAMME HEAD

**By Ms. Aastha Bhola, Head of Junior Programme, MDPS  
"Growing Minds, Not Just Grades"**

At Mother Divine Public School, our approach to early childhood and primary education is aligned with the principles of the National Curriculum Framework (NCF). The NCF emphasizes that learning should not be limited to rote memorization but should focus on experiential learning, creativity, and holistic growth.

**1. No Rote Learning – More Exploration**

Children learn best when they connect knowledge with real-life experiences. Instead of memorizing facts, they are encouraged to explore, question, and discover concepts through activities, stories, and hands-on tasks.

**2. Skill Development Beyond Academics**

Education today goes beyond textbooks. Skills such as problem-solving, teamwork, communication, and empathy are nurtured through projects, role-plays, art, music, and collaborative tasks. Activities like the Student-Led Parent Conference (SLPC) empower children to take ownership of their learning and confidently showcase their progress.

**3. Experiential Learning through Kitchen Garden**

Our newly initiated Kitchen Garden allows children to plant seeds, care for plants, and watch them grow. These activities instill patience, responsibility, and a deeper appreciation for nature while connecting them to science and environmental care in a fun, practical way.

**4. Assessments without Pressure**

In line with the NCF, assessments are designed to track progress and growth, not to judge or label children. There are no exams in early years; instead, continuous observations and feedback help teachers and parents understand a child’s strengths and areas for improvement.

**Tips for Parents: Growing Minds, Not Just Grades**

- Value Habits Over Marks – Encourage honesty, punctuality, kindness, and responsibility. These shape a child’s character more than a score ever can.
- Appreciate Effort, Not Just Outcome – Praise your child’s hard work, persistence, and creativity, even if the result isn’t perfect.
- Make Learning Joyful – Link studies to daily life—measuring ingredients in the kitchen, gardening, or storytelling—to help children learn naturally.
- Model What You Teach – Children learn more from what they see than what they hear. Show them by example—read, stay curious, and practice discipline.
- Celebrate Individuality – Every child grows at their own pace. Avoid comparisons; instead, focus on their unique strengths and talents.
- Encourage Responsibility – Involve children in small household tasks. These teach accountability, patience, and teamwork.

Celebrate Individuality – Every child grows at their own pace. Avoid comparisons; instead, focus on their unique strengths and talents.

Encourage Responsibility – Involve children in small household tasks. These teach accountability, patience, and teamwork.

**Remember: Grades may reflect a child’s progress in one subject, but habits reflect the foundation of their whole life. Together, as partners in education, we can help children grow into confident, empathetic, and skillful learners—prepared not just for academics, but for life.**

# FROM THE EDUCATOR'S DESK

**Ms. Divya**

"The future of the world is in our classrooms."

As Kindergarten educators, it's a privilege to watch our little learners bloom each day. With each activity and lesson, we focus on building their confidence, sparking their curiosity, and nurturing their creativity. It brings us immeasurable joy to see them grow—whether it's through improved writing skills, increased participation, or simply by watching their faces light up when they learn something new.

Every step forward, no matter how small, is a celebration for us. The bond we share with each child is one that goes beyond just teaching—it's about understanding, supporting, and guiding them through their individual journeys. Their laughter, enthusiasm, and progress are what drive us every day, and we feel incredibly proud to be part of such a magical time in their lives.

Thank you for trusting us with your children. Together, we are helping to shape their bright futures.

# SHINING STAR

NAME- VEDANT  
GRADE-KG A  
MONTH -JULY

Vedant is an active learner who excels in studies and contributes meaningfully in classroom activities.

NAME- NURVI  
GRADE-KG A  
MONTH -AUGUST

Nurvi is a bright and disciplined learner who pays attention, finishes her task on time.

NAME- YAKSHIT  
GRADE-KG A  
MONTH -SEPTEMBER

Yakshit is a bright student and actively participate in all activities.

# CLASSROOM CHRONICLES
