ARTICLE BY JUNIOR PROGRAMME HEAD

**By Ms. Aastha Bhola,
Head of Junior Programme MDPS
"Growing Minds, Not Just Grades"**

At Mother Divine Public School, our approach to early childhood and primary education is aligned with the principles of the National Curriculum Framework (NCF). The NCF emphasizes that learning should not be limited to rote memorization, but should focus on experiential learning, creativity, and holistic growth.

1. No Rote Learning – More Exploration

Children learn best when they connect knowledge with real-life experiences. Instead of memorizing facts, they are encouraged to explore, question, and discover concepts through activities, stories, and hands-on tasks

2. Skill Development Beyond Academics

Education today goes beyond textbooks. Skills such as problem-solving, teamwork, communication, and empathy are nurtured through projects, role-plays, art, music, and collaborative tasks. Activities like the Student-Led Portfolio Conference (SLPC) empower children to take ownership of their learning and confidently showcase their progress

3. Experiential Learning through Kitchen Garden

Our newly initiated Kitchen Garden allows children to plant seeds, care for plants, and watch them grow. These activities instill patience, responsibility, and a deeper appreciation for nature while connecting them to science and environmental care in a fun, practical way.

4. Assessments without Pressure

In line with the NCF, assessments are designed to track progress and growth, not to judge or label children. There are no exams in early years; instead, continuous observations and feedback help teachers and parents understand a child's strengths and areas for improvement.

"Education is not the learning of facts, but the training of the mind to think." — Albert Einstein

Tips for Parents: Growing Minds, Not Just Grades

- **Value Habits Over Marks** – Encourage honesty, punctuality, kindness, and responsibility. These shape a child's character more than a score ever can.
- **Appreciate Effort, Not Just Outcome** – Praise your child's hard work, persistence, and creativity, even if the result isn't perfect.
- **Make Learning Joyful** – Link studies to daily life—measuring ingredients in the kitchen, gardening, or storytelling—to help children learn naturally.
- **Model What You Teach** – Children learn more from what they see than what they hear. Show them by example—read, stay curious, and practice discipline.
- **Celebrate Individuality** – Every child grows at their own pace. Avoid comparisons; instead, focus on their unique strengths and talents.
- **Encourage Responsibility** – Involve children in small household tasks. These teach accountability, patience, and teamwork.

FROM THE EDUCATOR'S DESK

Ms. Draupadi and Ms Poonam kumari

“Teaching is the art of shaping minds, igniting curiosity, and guiding learners with wisdom and patience, creating a brighter future beyond classrooms and books.”

As a KG teacher, it brings us immense joy to share the progress of our little learners. Through thoughtfully planned activities, we have nurtured their confidence, curiosity, and creativity. Children have shown wonderful improvement in their writing skills and overall participation. We look forward to continuing this journey of growth and learning—one smile, one step, and one story at a time.

As a KG teacher, We are dedicated to nurturing every child's potential in a positive and encouraging environment. Each day, We strive to create opportunities that help our little ones grow academically, socially, and emotionally. Watching their progress fills me with immense joy and pride we feel a motherly instinct in every moment spent with them. Their laughter, curiosity, and achievements truly thrill us. Together, we celebrate every small milestone, and we are grateful to be part of their learning journey. Thank you for trusting us with your precious children and supporting their bright beginnings.

SHINING STAR

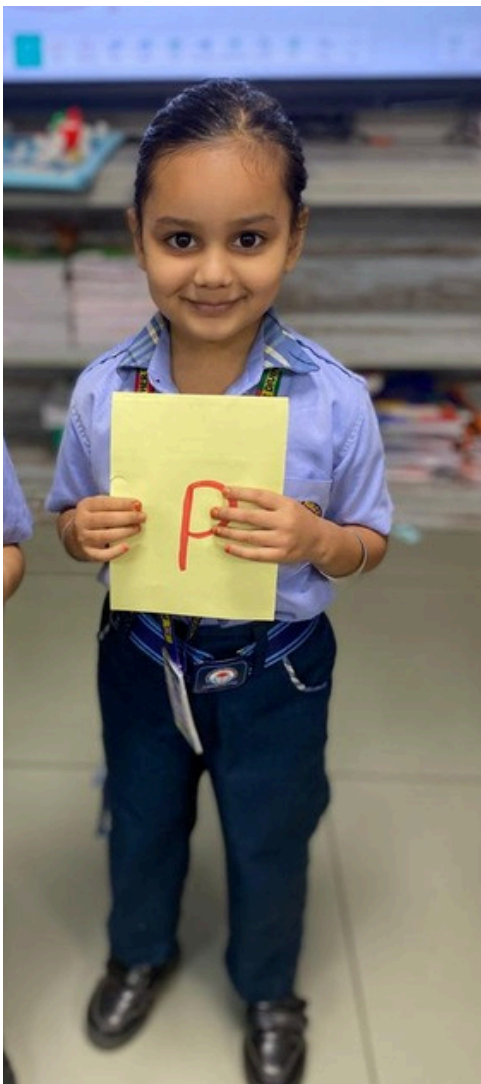

NAME- ATISHI
CLASS-KG-C
MONTH -JULY

Atishi is an active learner who excels in studies and contributes meaningfully in classroom activities.

NAME- CHARUL
CLASS-KG-C
MONTH -AUGUST

Charul is a bright and hardworking student who always does her best.

NAME- BHAVYA
CLASS-KG-C
MONTH -SEPTEMBER

Bhavya listens carefully in class and completes her work on time.
