New Admissions & Welcome Note

The beginning of an academic year marks the opening of new chapters across our school community. Whether stepping into school for the very first time or progressing into a new grade, each student enters the year with fresh expectations, new responsibilities, and opportunities waiting to unfold.

MDPS extends a warm and heartfelt welcome to all our new students and families joining us.

Becoming part of a new school community is an important milestone, one filled with curiosity, excitement, and discovery. We are delighted to have you with us and look forward to the unique perspectives, talents, and experiences you bring.

To our returning students, each new class represents more than academic progression, it is an invitation to explore further, challenge yourselves, and embrace the experiences that shape both learning and character.

As our classrooms fill once again with enthusiasm, conversations, and shared aspirations, we begin this year together with a sense of belonging and collective purpose. We look forward to the contributions, achievements, and memorable moments that will make this chapter meaningful for every learner.

Every chapter begins with a single step and every beginning holds the potential to create something meaningful.

Watered

COORDINATOR'S MESSAGE

*When young minds are nurtured with care,
they do not simply achieve, they thrive!*

Growth is often celebrated when it becomes visible, but true growth begins much earlier, in moments of guidance, encouragement, discipline, and quiet perseverance. Just as watering does not force a plant to bloom but creates the conditions for it to flourish, education too is not about creating success overnight; it is about nurturing individuals every single day.

The years from Grades IX–XII are transformational. Students stand at the threshold of becoming independent thinkers, future professionals, responsible citizens, and above all, individuals discovering who they are and who they wish to become. These years bring academic expectations, decisions, challenges, aspirations, and moments of self-discovery.

As educators and mentors, our responsibility extends beyond curriculum delivery. We strive to create an environment where students feel challenged yet supported, ambitious yet grounded, and confident yet compassionate. Through every lesson, conversation, opportunity, and experience, we aim to cultivate not only academic excellence but also resilience, leadership, integrity, and empathy.

This quarter has been a reflection of that journey, students stepping forward with curiosity, taking ownership of their learning, embracing responsibilities, and growing through both achievements and challenges. As we continue ahead, may we remember that meaningful growth cannot be rushed. With patience, purpose, and collective support from educators and families, we continue to water the roots today so our learners may bloom into thoughtful leaders of tomorrow.

Shweta K. Koundal
Senior Programme Head

Sprouting

Students' Achievements in School

We are proud to share that **Garvit Solanki of Grade 12 A** has been awarded the '**Certificate of Merit** in the '**Green Olympiad**', organized by **TERI (The Energy and Resource Institute)** and supported by TATA Limited and the Ministry of Environment, Forest and Climate Change.

This achievement reflects his environmental awareness, knowledge and commitment towards sustainable practices.

Sprouting

Students' Achievements in School

We are pleased to share the outstanding achievement of our Taekwondo team at the Indraprastha Cup Taekwondo Championship 2026, held on 19 April 2026 at Indira Gandhi Institute of Physical Education & Sports Sciences, University of [Delhi, Shaheed Rajguru Marg, A-Block, Vikaspuri, New Delhi](#).

Our students delivered an exceptional performance and won a total of 5 Gold Medals, making this the first-ever championship title for Mother Divine Public School at the Indraprastha Cup Taekwondo Championship.

The medal winners are:

Khushal Singh Dahiya – Class 12E

Titiksha – Class 10A

Kunal Singh Rajput – Class 10A

Mahi Malik – Class 10A

Ria Verma – Class 10E

Pollinated

Outstanding Achievement in the International Cyber Olympiad 2025

The School Management and Faculty proudly congratulate our brilliant students for their exemplary performance in the International Cyber Olympiad (ICO) 2025, organized by the Cyber Olympiad Foundation.

A motivated cohort of fifteen students from our school participated in this prestigious global arena, testing their advanced computing, logic, and technological skills against international standards.

Among the competitors, two of our exceptionally talented tech-enthusiasts secured top international ranks, bringing laurels to our institution:

- **YASH KHANDELWAL** (Grade IX) – Awarded the Bronze Medal for his outstanding logical reasoning and technical acumen.
- **ANAMIKA** (Grade X) – Awarded the Silver Medal for her stellar performance, demonstrating exceptional mastery over digital concepts.

We extend our heartiest congratulations to the winners, their proud parents, and the computer science department. We also commend all fifteen participants who stepped up to compete on this international stage. You are the future tech leaders of tomorrow!

The Power of Gratitude in a Fast-Paced World

'Great things happen to those who don't stop believing, trying, learning, and being grateful.'

— Roy T. Bennett

In today's fast-paced world, everyone seems to be running—busy with work, responsibilities, deadlines and daily chores. Life often feels like a race with no finish line, and in this constant rush, we tend to forget the One who made everything possible in the first place—God. We enjoy countless blessings every day, yet we rarely pause long enough to acknowledge them. This is where the simple but powerful practice of gratitude comes in.

We often wait for big achievements to feel thankful, but the truth is that blessings surround us every single day. The things we take for granted—our health, family, shelter, food, safety—are things many people are desperately longing for. Gratitude teaches us to value what we have instead of constantly chasing what we don't.

It takes only a few moments to be thankful, but its impact can transform an entire day. When we practice gratitude, we naturally cultivate humility, acceptance, and a deeper appreciation for the life we've been given.

Throughout an entire day, we come across countless people who, in small or big ways, make our lives easier, better, and more meaningful. From the family members who support us, to co-workers who help us move through our tasks, to the strangers who offer help, the person who prepares our food, the teacher who guides us, the driver who takes us safely from one place to another and many more. Gratitude opens our eyes to these everyday blessings.

A simple "thank you" may seem small, but its effects are powerful. It has the power to brighten someone's entire day. It makes people feel seen, valued, and appreciated. When we express gratitude, we create a ripple effect—our words lift someone's spirit, and that positivity often spreads to others. A heartfelt thank you can soften stress, strengthen relationships, and bring warmth to even the smallest interactions. In a world where many feel unnoticed, gratitude becomes a gentle reminder that kindness still exists.

Make it a habit to begin your morning with a thankful heart and end your day by reflecting on the blessings you received, big or small.

Gratitude shifts our heart from self-centeredness to appreciation, from complaining to contentment, and from stress to peace. Over time, this simple habit moulds us into better human beings—more grounded, more giving, and more connected to God and others.

Always remember, when we count our blessings, life multiplies its gifts.

यादें और आभार

चुपचाप से खड़े थे मौन यूं
पूछा जो मैंने, कुछ कहना है?
फिर मुस्काए तुम और कह ही गए
कि इन लम्हों को आंखों में भरना है
थोड़ा दूर और साथ हमें चलना है
उंगली पकड़कर, हाथ बढ़ाकर
थामा हमें हर हाल में
कैसे भूले, हैं याद हमें
हर वक्त जो साथ में गुज़रा है
वो खिलखिलाती सी हंसी
वो डांट, वो पढ़ाई
वो रुठना, वो मनाना
वो किताबें ना लाना, वो बहाने बनाना
है गवाह हर दीवार उस कमरे की
जहां रोज़ नया कुछ सिखाते थे
किताबों से ज्यादा हम आपसे
जिंदगी ही सीख जाते थे
अब साथ नहीं,
फिर भी है याद हमें
हर बात जो आप समझाते थे
जिंदगी के फ़लसफ़े कितनी सरलता से कह जाते थे
था सफ़र यहीं तक, साथ यहीं तक
फिर भी वादा ये करते हैं
एक दिन ऐसा भी आएगा
गुलूर बनेंगे हम आपका
जब मंजिल अपनी पा लेंगे
रहेंगे ऋणी आपके सदा
शुकराना कभी ना कर पाएंगे।

श्रीमती रिम्पी

From the Gardeners

Teachers' Corner

Hello everyone — curious minds and grown-up humans

Imagine our school as a cozy treehouse built together: laughter tapes the walls, curious questions hang from the rafters, and little brave steps keep us climbing. I'm Sunita Kumari, Psychology Teacher, and I love being the person who helps tighten a loose rope, lend a flashlight in the dark, or cheer the loudest when someone finally climbs up.

Every child carries a backpack of stories. Some packs are full of sunshine; some rattle with worries. We don't empty those packs for them — we sit down, unzip the zipper, and help sort what's helpful (kindness, curiosity), what needs fixing (tired sleep, big worries), and what can be tucked away for later. Simple tools make that work easier:

- Two-Breath Pause: Smell a cookie (inhale), blow out a candle (exhale). Do it twice and feel calmer.
- Feeling Map: Point to where you feel it—tight chest, fluttery stomach—and name it: "I'm nervous," "I feel left out."
- Tiny Treasure Goal: Choose one small win—finish one question, share one smile—and celebrate it like a found treasure.

Let's play and practice together:

- Teachers: try a 60-second check-in each morning—one word from every child about how they feel. No fixing, just listening.
- Parents: tuck a tiny note in a lunchbox this week — a doodle, "You're brave," or a silly joke.
- Students: create a secret handshake of kindness with a friend or give someone a sticker for trying.

When a child says "I can't," add a small but powerful word: "yet." When someone acts out, ask, "What happened?" before "Why?" Curiosity opens doors; judgment slams them shut. Our calm voice, steady routines, and genuine interest are the safety rails children need to take risks.

Bravery here is often quiet: a hand raised for the first time, an apology, a return to play after being upset. We will celebrate these tiny wins—loudly. Together, we build a place where mistakes are experiments, feelings are named, and growth is a daily habit.

I'm here to walk alongside your child, to listen, and to help guide small steps that lead to big changes. Bring your curiosity, your patience, and your best "you've got this" face. I'll bring the warm words and a sticker or two.

QUIZ: GUESS THE IMPOSTER (AI)

Instructions: You have to guess which statement said by the person is AI

Round 1

Prompt: "What is the greatest thing about traveling?"

Person A: I feel it opens up possibilities to new, unfamiliar experiences and makes me realize how diverse and creative human beings are while we all share the same basic wants.

Person B: Traveling provides opportunities to broaden horizons, learn about new cultures, and create unforgettable memories through new encounters.

Person C: I think it's that familiar but alien feeling that hits when you've never been somewhere before but somehow recognize it already.

Round 2

Prompt: "Why is it that people love stories so much?"

Person A: They're our best bet to experience the lives we might never lead.

Person B: People enjoy stories due to their entertaining qualities, emotional impact, and ability to facilitate exploration of various perspectives.

Person C: It doesn't have to change your life. Sometimes it just makes your afternoon a whole lot more interesting.

Answers:

Round 1: B

Round 3: B

Article on Success

Having dreams is essential to a person's life. However, simply dreaming is insufficient to achieve success or fulfil one's life goal.

Our actions and dedication determine the kind of person we become and the lifestyle we lead. Without putting in effort and working hard towards our aspirations, there is no value or achievement.

These efforts require determination and the courage to overcome challenges. While some may equate success with wealth, true success comes from reaching our dreams and fulfilling our goals.

For instance, someone who dreams of becoming a doctor can only do so through hard work and dedication to their chosen path. There are no shortcuts to success; it requires honesty, truthfulness, and perseverance.

The road to success is never easy and has no alternative route. One must overcome obstacles while remaining resilient to continue on the journey.

Giving up means failing, but if we stay strong, solutions will eventually reveal themselves – it may take time and effort, but they are always within reach if we look in the right direction.

Samriddhi Dhiman, XII D

Building the Bridge

Block Teaching & Bridge Classes

"Inspiring minds, building confidence, shaping success."

Mother Divine Public School successfully conducted its Block Teaching Programme for Classes X, XI and XII from 18 to 26 May 2026, offering students a focused and enriching learning experience ahead of the academic session. The programme was thoughtfully designed to strengthen conceptual understanding, encourage independent thinking, and build confidence for future assessments and board examinations.

Throughout the programme, classrooms were filled with meaningful discussions, collaborative learning, practical activities, and interactive lessons. Teachers created an engaging environment where students were encouraged to ask questions, explore ideas, and connect classroom learning with real-life situations. This learner-centred approach made lessons more enjoyable while helping students develop a deeper understanding of their subjects.

A variety of teaching strategies, including smart board presentations, laboratory activities, competency-based exercises, revision sessions, case studies, and problem-solving tasks, ensured that learning remained dynamic and engaging. Students actively participated in literary discussions, scientific investigations, mathematical reasoning, practical demonstrations, writing activities, and technology-based exercises, making each classroom experience both purposeful and rewarding.

The dedication and enthusiasm of the teaching staff played a significant role in the programme's success. Through continuous guidance, personalised support, regular feedback, and doubt-clearing sessions, teachers helped students strengthen their understanding, improve their answer-writing skills, and develop greater confidence in tackling application-based and examination-oriented questions.

The programme not only reinforced academic concepts but also encouraged students to think critically, communicate effectively, and approach learning with curiosity and confidence. It served as an excellent opportunity to identify learning gaps, reinforce key concepts, and foster positive study habits that will support students throughout the academic year.

The Block Teaching Programme reflects school's continued commitment to providing a nurturing and progressive learning environment where every student is encouraged to grow academically and personally. Through the collective efforts of our dedicated teachers and enthusiastic learners, the programme proved to be a valuable step towards achieving academic excellence and preparing students for future success.

Blooming for the Blue Planet

Earth Day Celebration

Date and venue- 22nd April, 2026- School ground

An assembly on the occasion of Earth Day was conducted in the school ground on 22 April 2026. The programme began with the morning prayer followed by a speech highlighting the importance of protecting the environment and conserving natural resources.

Students presented poems, slogans, and a short skit to spread awareness about pollution, deforestation, and the need to keep our surroundings clean. Teachers encouraged students to plant more trees, save water, and reduce the use of plastic.

The SP head addressed the gathering and motivated everyone to take small steps towards making the Earth greener and healthier. The assembly concluded with the National anthem.

Assembly Report

Presented by XII B

Morning Assembly on “Healthy Habits, Happy Life”

On 9 April 2026, the students of Grade XII-B conducted the morning assembly on the theme “Healthy Habits, Happy Life” under SDG 3: Good Health and Well-Being. The students participated enthusiastically and made the assembly both informative and engaging.

The programme began with a brief introduction to the theme, followed by the morning prayer and energetic anchoring. A news segment covering sports, weather, national, and international updates kept the audience informed, while the thought for the day inspired positive reflection.

An interesting skit presented by the students effectively highlighted the importance of adopting healthy habits and maintaining a balanced lifestyle.

The assembly also witnessed the felicitation of the participants and winners of the Cyber Olympiad. Prizes were distributed by the respected Coordinator, Ms. Shweta, along with Ms. Pooja Naruka and Ms. Aditi Suri.

To promote physical fitness, a quick warm-up session was conducted by Aditya and Chitra with the support of the respected PTI. The assembly concluded with the National Anthem and a vote of thanks to the audience for their attentive participation.

BLESSINGS DAY

Blessings Day at Mother Divine Public School is an annual tradition dedicated to paying obeisance to **Smt. Vidyawati Budhraja.**

Reconnecting with our roots! The entire school community came together for a sacred Hawan ceremony to seek blessings for wisdom, peace, and prosperity. The calming vibrations of the Vedic chants filled our hearts with gratitude and positivity. Guided by the timeless values laid down by our founders, school community will continue to stride forward with integrity, discipline, and excellence.
